

Car Sales Dashboard Analysis

Objective

Analyze car sales data and build an interactive Power BI dashboard to monitor performance, identify trends, and support business decision-making.

Tools Used

- Microsoft Excel
- Power BI
- Power Query
- DAX

Key KPIs

- **Total Sales:** ₹5.54 Billion
- **Total Orders:** 1,000
- **Total Units Sold:** 5,517
- **Average Sales per Order:** ₹5.54 Million

Key Insights

- **East region** generated the highest sales (**₹1.50 Billion**).
- **Sedan** category contributed the highest revenue (**₹2.24 Billion**).
- **Sedan D** was the top-selling product (**₹1.18 Billion**).
- **Rahul** was the top-performing salesperson (**₹1.02 Billion sales**).
- **November** recorded the highest monthly sales (**₹518 Million**).

Dashboard Features

- KPI Cards
- Region-wise Sales Analysis
- Category-wise Sales Distribution
- Monthly Sales Trend
- Product Performance Analysis
- Salesperson Performance Tracking
- Interactive Slicers and Filters

What I Learned

- Data Cleaning & Transformation
- DAX Calculations
- Dashboard Design & Visualization
- KPI Tracking & Trend Analysis

- Business Insight Generation
- Data Storytelling with Power BI

Business Questions Answered by the Dashboard

1. What is the **total sales revenue** generated?
 - **₹5.54 Billion**
2. How many **orders** were placed?
 - **1,000 Orders**
3. How many **units** were sold?
 - **5,517 Units**
4. What is the **average sales value per order**?
 - **₹5.54 Million**
5. Which **region** generated the highest sales?
 - **East Region (₹1.50 Billion)**
6. Which **category** generated the highest revenue?
 - **Sedan Category (₹2.24 Billion)**
7. Which **product** was the best seller?
 - **Sedan D (₹1.18 Billion)**
8. Who was the **top-performing salesperson**?
 - **Rahul (₹1.02 Billion)**
9. Which **month** recorded the highest sales?
 - **November (₹518 Million)**
10. Which region needs improvement?
 - **North Region**
11. What are the monthly sales trends throughout the year?
 - Sales peaked in **November** and were lowest during **June–September**.
12. Which products contribute the most to overall revenue?
 - **Sedan D, Hatchback C, and SUV E**

Resume Project Summary

Built an interactive **Car Sales Dashboard** using Excel and Power BI to analyze **1,000 sales records**, track **₹5.54 Billion** in revenue, monitor KPIs, identify top-performing regions/products, and generate actionable business insights.
